

BAR MONROE

Welcome to Monroe's! With a catchphrase that says that we are 'Blending old world elegance with a touch of modern boldness', Monroe does not only build a bridge between the Old and New South, but also makes the connection between yesteryear's classic drinks and modern creations.

Head bartender Yuni Herremans and his team got to work on this and serve classics in their purest form or with a personal touch and contemporary drinks.

Chanteraine

Triple cream cheese from raw cow's milk from Île-de-France. The paste is softly sweet and pleasant in taste. Cream is added to the milk to make it extra full. The cheese is rich and buttery, and is produced in Seine-et-Marne, a department with a rural side as well as the Parisian suburbs. They also make Brie de Meaux and de Brie de Melun here. This is a rather young variety of cheese, since it was only in the '30s it first saw the light of day. The cheese is named after the famous connoisseur Brillat-Savarin.

Alex

Alex is a semi-hard cheese, coming from the Allgäu region in Southern Germany. It's a typical mountain cheese, that is full in flavour and has matured for nine months. The rind is covered in a mixture of ash and elderflower syrup. When the cheese refiner made his very first cheese, he didn't have a name for it while travelling to the shop in Munich to present it there. Therefore he named it after the train he was on: the Allgäu Express, or Alex in short.

Le Petit Diable

Le Petit Diable is a creation of the master refiners Van Tricht themselves. This lovely cheese is made from pasteurized cow's milk, coming from the North of France. Cows graze near the coast and thus eat their grass pre-salé. This gives a specific taste to their milk. During the production process a strong blond beer of high fermentation is added to this cheese. Afterwards the rind is also washed multiple times with the same beer. A coat of breadcrumbs holds on to the beer aromas.

Cheddar Farmhouse Quicke

This cheddar cheese is made by the family Quicke in Exeter in the Southwest of England. Pasteurized milk from their own cows is processed on their farm. This cheese matures for one year in a muslin which leads to a special earthy taste. A complicated flavour combination of sour, salt and bitter.

Vanillien

Farm-made cheese from raw goat's milk, marbled with vanilla powder, coming from Normandy. This cheese was developed by cheese refiners Van Tricht and is made just for us. Not very sweet, but rather slightly salted. You'll find a salty flavour first and afterwards the vanilla breaks through elegantly.

Comté Marcel Petite Fort Saint Antoine Réserve

Renowned hard cheese from the Jura, made from raw cow's milk. This cheese has matured in an old military fort at about 1100 meter altitude, where temperature as well as humidity are constant. The perfect environment to ripen your cheese. The natural flora in this fort brings a rather unique taste to their cheeses. The curiosity of this Réserve is that refiners Van Tricht selected the wheels upon their taste and made them put aside in the fort, after which they are brought to the maturing room in the city brewery to proceed their ripening process.

Shropshire Blue

This high-class cheese from cow's milk is made in the United Kingdom and is related to the Stilton cheese. This one was first produced in 1970 at the milk factory Castle Stuart in Inverness in Scotland, by Andy Williamson, a cheese maker who was trained in the production of Stilton in Nottinghamshire in the UK. Therefore this cheese was first known by the name 'Inverness-shire Blue' or 'Blue Stuart', but later rebaptized to Shropshire Blue to draw more attention to it. So for the record: it has nothing to do with the place called 'Shropshire'.

Nowadays, it is produced in cheese factories in Clawson, Leicestershire, Cropwell Bishop and Colston Bassett, where they also make Stilton. This blue cheese gets its orange colour by the addition of annatto, some natural food coloring. Shropshire is softer than Stilton but equally creamy in texture. Aside from the spiciness coming from the blue marbles, you'll also get a sense of caramel flavour.

Picon Bejes

Strongly pronounced flavours in this blue cheese, with DOP Cantabria label, from Northern Spain. Depending on the season, it is made from a mix of cow, goat and sheep's milk. But most of the time, it's just cow's milk. The appellation demands that its maturing process takes place in natural caves. The blue mould has a special irregular structure and tastes somewhat smoky. The farmer has no more than about 20 cows and processes their milk on the farm.
