THE CHEESES

Camembert Sheep

Garage Fromage is a charming small-scale initiative that started in 2022. A few passionate cheese-makers turned their hobby into a profession, making cheese in Herent, near Leuven. They source raw milk from local farmers. As the name suggests, this is a white-mold cheese made from sheep's milk with a creamy heart and full of flavor.

Drunk Devil

This semi-hard cheese is infused with the famous Duvel beer in the milk, and then washed with Duvel during the aging process. The result is a malty and hoppy cheese. The rind is edible. The cheese is made from pasteurized cow's milk sourced from farmers in the Roeselare region, where the dairy is located.

Husumer

A mildly flavored washed-rind cheese, milder than a Munster, from the organic dairy farm Backensholzer Hof in the northern part of Germany, in the Kreis Nordfriesland region. The village has 650 inhabitants. They process cow's milk from their own herd and operate entirely organically.

La Trappe au Noix

This cheese from Périgord was originally made by nuns in the Echournac Abbey. It is a cheese made from pasteurized cow's milk. During aging, the rind is regularly washed with nut liqueur, giving it a strong nutty aroma.

Alex

Alex is a semi-hard cheese, coming from the Allgäu region in Southern Germany. It's a typical mountain cheese, that is full in flavour and has matured for nine months. The rind is covered in a mixture of ash and elderflower syrup. When the cheese refiner made his very first cheese, he didn't have a name for it while travelling to the shop in Munich to present it there. Therefore he named it after the train he was on: the Allgäu Express, or Alex in short.

**Comté Marcel Petite Fort Saint Antoine
Réserve**

Renowned hard cheese from the Jura, made from raw cow's milk. This cheese has matured in an old military fort at about 1100 meter altitude, where temperature as well as humidity are constant. The perfect environment to ripen your cheese. The natural flora in this fort brings a rather unique taste to their cheeses. The curiosity of this Réserve is that refiners Van Tricht selected the wheels upon their taste and made them put aside in the fort, after which they are brought to the maturing room in the city brewery to proceed their ripening process.

Old Groendal

Belgian cheese made from pasteurized cow's milk. This 'old' crumbly cheese, sometimes referred to as 'the Parmesan cheese of Belgium', has aged for 18 months.

Shropshire Blue

This high-class cheese from cow's milk is made in the United Kingdom and is related to the Stilton cheese. This one was first produced in 1970 at the milk factory Castle Stuart in Inverness in Scotland, by Andy Williamson, a cheese maker who was trained in the production of Stilton in Nottinghamshire in the UK. Therefore this cheese was first known by the name 'Inverness-shire Blue' or 'Blue Stuart', but later rebaptized to Shropshire Blue to draw more attention to it. So for the record: it has nothing to do with the place called 'Shropshire'.

Nowadays, it is produced in cheese factories in Clawson, Leicestershire, Cropwell Bishop and Colston Bassett, where they also make Stilton.

This blue cheese gets its orange colour by the addition of annatto, some natural food coloring. Shropshire is softer than Stilton but equally creamy in texture. Aside from the spiciness coming from the blue marbles, you'll also get a sense of caramel flavour.
