MONROE'S FAVORITE

**NICOLAS FEUILLATTE
BLANC DE BLANCS, MILLÉSIME 2019
CHARDONNAY | ÉPERNAY | CHAMPAGNE, FRANCE**

A house champagne to die for!

At Monroe we not only opt for 100% chardonnay grapes with this sublime golden Blanc de Blancs champagne, but we also choose a very beautiful and special vintage. We are only too happy to pamper you! This beautiful “golden boy” has aged for 6 years in the cellars, which gives it a super fine sparkle, an aromatic “nose” with citrus, white flowers and pear. 2018 is a millésime to say ‘Vous’ to with a rich pallet and a wonderful long finish.

An absolute top aperitif but at the same time the best friend of our oysters, scallops and other seafood. Also not to be missed when paired with comté cheese, our strawberry desserts or Basque burned cheesecake.

90/100 in Decanter Magazine - 100% chardonnay

CHEESES

CAMEMBERT SHEEP

Garage Fromage is a charming small-scale initiative that started in 2022. A few passionate cheesemakers turned their hobby into a profession, making cheese in Herent, near Leuven. They source raw milk from local farmers. As the name suggests, this is a white-mold cheese made from sheep's milk with a creamy heart and full of flavor.

DRUNK DEVIL

It is a semi-hard cheese to which the famous Duvel beer is added to the milk, after which it is washed with Duvel during ripening. The result is a cheese that is malty and hoppy. The rind is also edible. The cheese is made from pasteurized cow's milk from farmers in the Roeselare region where the cheese factory is also located.

LE PETIT GROS LORRAIN

When Philippe Marchand, a 6th-generation affineur, discovered an old wooden cheese mold containing a handwritten recipe by his grandmother, he realized it referred to a cheese that had not been produced for over 50 years. His passion for cheese and terroir led him to search for a producer willing to revive this recipe. The result is a washed-rind cheese in the style of Munster, but with a firmer core. Rich and full of flavor, it is made from a blend of raw evening and morning milk.

LA TRAPPE AU NOIX

This cheese from Périgord was originally made by nuns in the Echournac Abbey. It is a cheese made from pasteurized cow's milk. During aging, the rind is regularly washed with nut liqueur, giving it a strong nutty aroma.

ALEX

Alex is a semi-hard cheese, coming from the Allgäu region in Southern Germany. It's a typical mountain cheese, that is full in flavour and has matured for nine months. The rind is covered in a mixture of ash and elderflower syrup. When the cheese refiner made his very first cheese, he didn't have a name for it while travelling to the shop in Munich to present it there.

Therefore he named it after the train he was on: the Allgäu Express, or Alex in short.

COMTÉ MARCEL PETITE FORT SAINT ANTOINE RÉSERVATION

Renowned hard cheese from the Jura, made from raw cow's milk. This cheese has matured in an old military fort at about 1100 meter altitude, where temperature as well as humidity are constant. The perfect environment to ripen your cheese. The natural flora in this fort brings a rather unique taste to their cheeses. The curiosity of this Réserve is that refiners Van Tricht selected the wheels upon their taste and made them put aside in the fort, after which they are brought to the maturing room in the city brewery to proceed their ripening process.

OLD GROENDAL

Belgian cheese made from pasteurized cow's milk. This 'old' crumbly cheese, sometimes referred to as 'the Parmesan cheese of Belgium', has aged for 18 months.

SHROPSHIRE BLUE

This high-class cheese from cow's milk is made in the United Kingdom and is related to the Stilton cheese. This one was first produced in 1970 at the milk factory Castle Stuart in Inverness in Scotland, by Andy Williamson, a cheese maker who was trained in the production of Stilton in Nottinghamshire in the UK. Therefore this cheese was first known by the name 'Inverness-shire Blue' of 'Blue Stuart', but later rebaptized to Shropshire Blue to draw more attention to it. So for the record: it has nothing to do with the place called 'Shropshire'. Nowadays, it is produced in cheese factories in Clawson, Leicestershire, Cropwell Bishop and Colston Bassett, where they also make Stilton. This blue cheese gets its orange colour by the addition of annatto, some natural food coloring. Shropshire is softer than Stilton but equally creamy in texture. Aside from the spiciness coming from the blue marbles, you'll also get a sense of caramel flavour.
